To Whom It May Concern:

Our business had been considering new signage for a couple of years. We knew we wanted to do something significant and eye catching but we wanted to make sure we did it right. M&J signs came highly recommended so we decided to investigate what they could do for us. Mike Brown worked with us from the very beginning of the project. He presented us with a number of designs, helped us talk through exactly what we wanted to accomplish with our sign, and was with us all the way through the finished product. We made a number of changes along the way and Mike was very accommodating.

Having said all that, what really matters is the effectiveness of the product. We have had our sign up and running for over 6 months now and we still have people commenting on how great it looks almost weekly. We know that we are reaching our audience with the most impact we can thanks to M&J Signs. I would recommend them very highly.

Respectfully,
